MEMORANDUM FOR: Assistant Director for Central Reference

**SUBJECT: Assistance Given Legislative Counsel by
the Dissemination Control Branch**

1. As you are aware, arrangements were made with your office several years ago for the reproduction of certain extremely sensitive materials through the facilities of the Dissemination Control Branch. We have called on that Branch a number of times in the past.

2. Within the past few weeks, we have had occasion to request the reproduction of five or six documents. In view of the sensitivity of these documents and the urgency involved in completing the reproduction process, it was necessary that they be handled with discretion and dispatch. The reproductions of these materials have been used personally by the Director.

3. [] and those working with him have somehow managed to service each request we have made despite the deadlines involved. I would like for you and them to know that their assistance to the Director and to this Office is most appreciated.

JOHN S. WARNER
